6 March

Forecast: Considerable cloudiness in Bosnia, Montenegro, southern Serbia, and Macedonia, with snow in some areas. Moderate to considerable cloudiness in other sections. Moderate northwesterly winds. The fall in temperature will spread to all sections.

7 March

Forecast: Cloudy with rain in the central and southern Primorje. Cloudy with light snow in Montenegro, Macedonia, and southern Serbia. Slight to moderate cloudiness in other sections. Cold to moderate northerly winds. Heavy bura (cold violent wind from the north or northeast) over the Adriatic Sea. Heavy morning frost in northern sections. No significant changes in day temperatures.

8 March

Forecast: Variable cloudiness with occasional light snow, except in the Primorje and Montenegro, where it will be slightly to moderately cloudy. Moderate northeasterly winds, except for heavy bura in the Primorje. Heavy morning fog.

9 March

Forecast: Mostly clear during the night. Heavy morning fog. Moderate cloudiness during the day, except for the mountain areas, where it will be considerably cloudy. Light easterly winds, except for heavy bura in the Primorje.

10 March

Forecast: Mostly clear, except for morning fog in some valleys and lowlands. Light to moderate easterly winds in the interior. Moderate bura along the coast. Heavy morning frost. Temperature rising during the day, especially in the western section.

11 March

Forecast: Cloudy with rain in Slovenia, western Croatia, and along the coast. Strong southerly winds in the Primorje. Temperature rising, especially in the western section.

14 March

Forecast: Weather growing worse with moderate northerly winds, local rain and snow, and considerable coolness in Slovenia, Croatia, and the northern Primorje. Moderate cloudiness and moderate southerly winds in other sections. No change in temperature.

15 March

Forecast: Considerable cloudiness with local snow in Macedonia and southern Serbia in the forenoon. Weather improving during the day in other sections. Clear in the morning, but slightly cloudy during the day. Moderate northerly winds, except for moderate to heavy bura in the Primorje. Moderate morning frost in the interior. Temperature rising during the day.

STAT

RESTRICTED

16 March

Forecast: Slight to moderate cloudiness. Light variable winds, with the bura diminishing in the Primorje. Light morning frost. Temperature rising during the day.

17 March

Forecast: Slightly cloudy. Light winds. Temperature rising considerably.

18 March

Forecast: Moderate cloudiness in Slovenia, Croatia, the Vojvodina, and the Primorje. Light to moderate southwesterly and westerly winds. Temperature rising.

20 March

Forecast: Slight to moderate cloudiness. Light to moderate easterly winds. Moderate morning frost. Temperature rising during the day.

21 March

Forecast: Cloudy with occasional rain and moderate westerly winds in Slovenia and Croatia. Moderate cloudiness with light winds in other sections. Temperature will rise.

22 March

Forecast: Very variable weather and occasional rain. Snow in the mountain areas of Slovenia and Bosnia. Moderate winds veering to the northwest. Considerable coolness is expected in the northern sections and in the interior.

23 March

Forecast: Weather growing worse with rain in the western, northern, and central sections. Moderate cloudiness in other sections. Light westerly winds. Temporary rise in temperature.

24 March

Forecast: Variable cloudiness. Cloudy with rain in Slovenia by evening. Light to moderate northwesterly winds. No significant change in temperature.

25 March

Forecast: Variable weather with brief local rain. Moderate westerly winds predominating. No significant change in temperature.

27 March

Forecast: Weather growing steadily worse with rain and cold spreading from the west to all areas. Strong winds veering to the northwest.

28 March

Forecast: Considerable cloudiness. Occasional rain in the southeastern section. Local light snow in the northern section. Moderate northeasterly winds, except for moderate bura in the Primorje. Light morning frost in the northern section.

29 March

Forecast: Cloudy with occasional rain in the Primorje and Slovenia. Moderate cloudiness in other sections. Moderate to strong southerly winds. Temperature rising somewhat.

30 March

Forecast: Cloudy with occasional heavy thundershowers in Montenegro, Bosnia-Herzegovina, and the Primorje. Occasional cloudiness with brief local rains in other sections. Moderate to strong southerly winds. No significant change in temperature.

31 March

Forecast: Moderate to considerable cloudiness with some coolness. Brief local rains. Moderate southwesterly to westerly winds.

1 April

Forecast: Slight to moderate cloudiness, except in the northern Primorje, where it will be considerably cloudy. Moderate southwesterly winds. Slight rise in temperature.

2 April

Forecast: Weather growing worse temporarily with thundershowers, followed by clearing in all sections. Moderate southwesterly winds.

3 April

Forecast: Cloudy with occasional rain, and perceptible decrease in temperature. However, it will clear in the forenoon in the northwestern section.

4 April

Forecast: Cloudy with rain and snow in the extreme southeastern section. Slight to moderate cloudiness in other sections. Moderate northerly winds. Light to moderate morning frost.

5 April

Forecast: Clear or slightly cloudy in the Primorje and the northwestern section. Moderate northeasterly winds, except for moderate to heavy bura in the Primorje. Morning temperature in the interior, minus one degree, but rising during the day.
